

Taro MATSUO

Position	Research Associate Professor
Lab/Group	Space Astronomy Laboratory (Infrared Astronomy Group) (Uir Lab)
e-mail ※	matsuo{a}u.phys.nagoya-u.ac.jp

※replace {a} by @

Education and Degrees

March, 2004, *B.Sc.*, Department of Physics, School of Science, Nagoya University

March, 2006, *M.Sc.*, Division of Particle and Astrophysical Science,
Graduate School of Science, Nagoya University

March, 2008, *Ph.D.*, Division of Particle and Astrophysical Science,
Graduate School of Science, Nagoya University

Positions

April, 2008, *JSPS Researcher (DC1)*, Osaka University (*Visiting Researcher* in
NASA Jet Propulsion Laboratory, from April 2008 till March 2010)

April, 2010, *JSPS Researcher (PD)*, National Astronomical Observatory of Japan
(NAOJ)

January, 2012, *Projected Associate Professor*, Department of Physics,
Graduate School of Science, Kyoto University

October, 2015, *Assistant Professor*, Department of Space and Earth Science,
Graduate School of Science, Osaka University

June, 2018 - Current, *Research Fellow*, NASA Ames Research Center

November, 2019 - Current, *Department of Physics*,
Graduate School of Science, Nagoya University

Research

Development of new approach and concept for extrasolar planets (e.g., highly stable spectrograph for characterizing transiting habitable planets, space interferometer)
