

Associate Professor, Division of Particle and Astrophysical Science, Graduate School of Science, Nagoya University

Title/Number to be admitted:

Associate Professor, 1 Person

Division/Lab:

Division of Particle and Astrophysical Science, Laboratory for High Energy Physics (N Lab.)

Research Field/Job Description:

Experimental particle physics

The successful candidate is expected to carry out research mainly for the LHC/ATLAS experiment, and also take the significant role in educating graduate and undergraduate students.

Start of the term:

As early as possible after acceptance is notified

Term:

No term limit until the age of 65

Qualification:

The degree of Doctor of Science or equivalent

Application documents:

- (a) Curriculum vitae
- (b) Publication list
- (c) Copy of major publications (up to 3)
- (d) Description of research experience
- (e) Research plan and educational aspiration
- (f) USB memory containing electronic files of the documents (a)-(e)
- (g) Recommendation or reference letters from 2 persons

Application deadline:

March 19 (Friday), 2021, JST

Application should be sent to:

Prof. Yuko Okamoto, Chair, Department of Physics, Graduate School of Science, Nagoya University, Furo, Chikusa, Nagoya, 464-8602, Japan

For more information:

Prof. Toru Iijima, email: ijijima@hepl.phys.nagoya-u.ac.jp

Others:

In the personnel affairs of the faculty members of the physics department, women may be actively hired if the evaluations are the same.

For the submission of the application documents, write in red on the envelope "Application documents

for Associate Professor" and mail it by registered mail. The application documents will not be returned. We do not accept application by email attachment. Contact us, if mailing is difficult due to international postal conditions associated with the spread of COVID-19 infection.
